

Climate Emergency Action Group

A few months ago we held an online Climate Workshop, with the opportunity to hear about what is happening locally and in the church to tackle the climate emergency. We also spent time in groups discussing what our role as a church is in taking action, and what changes we might make as individuals.

It seems a good time to reflect on what came out of this workshop and to move things forward. As a result, we are looking to form a Climate Emergency Action Group – with people from within our church to discuss the ideas that came out of the workshop further, and to start to implement some of them.

Please contact [The Reverend Hannah Higginson](#) if you would like to be involved
